REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The art of record fail to teach or suggest a device capable of closing a vessel puncture having a ring shape with a plurality of spikes extending from the ring towards the center of said ring and also a plurality of tabs extending substantially radially from the ring, wherein rotating the tabs about the ring distorts said ring such that the spikes are rotated in the same direction as the tabs to close the puncture in the vessel and further, wherein the ring is mounted on a cannula. The prior art even further lack teaching, wherein the ring has an undulating shape without the tabs. For these reasons, the claims are believed to be allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
